DETAILED ACTION

Claims 6, 8, 14, 16-20, 22, 24-26, 42, 44, 51-53, 61, 71-79, 90, 94 have been cancelled. Newly submitted claims 95 -120 have been entered. The active claims are 1-5, 7, 9-13, 15, 21, 23, 27-41, 43, 45-50, 54-60, 62-70, 80-89, 91-93 and 95-120 of which claims 1, 31, 97, 99, 106, 114, 117, 119, 120 are independent claims.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 114-116 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims are directed to a software application (programs) which is not one of patentable subject matters.

Claim Rejections - 35 USC § 112, 1st paragraph

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-5, 7, 9-13, 15, 21, 23, 27-41, 43, 45-50, 54-60, 62-70, 80-89, 91-93 and 95-120 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not

Art Unit: 2155

described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The specification fails to teach how to configure a system for providing each user entity with a virtual, unique, private, personal, social network formed from connections between contacts, said contacts being entities connected directly or indirectly to a user entity and further providing respective interrelationship context information associated with a connection between at least two contacts and/or between a contact and the user.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5, 7, 9-13, 15, 21, 23, 27-41, 43, 45-50, 54-60, 62-70, 80-89, 91-93 and 95-120 are rejected under 35 U.S.C. 102(e) as being e by Abrams (USP 7,069,308).

See Figures 1-9, the description there of in the specification and column 3 lines 44-54 in Abrams. Abrams teaches a dating or social network:

Claims 1, 31, 97, 99, 106, 114, 117, 119, 120

A social network system (Figure 1) comprising:

Art Unit: 2155

at least one host computer processor (server 124) connectable to at least one data network (Internet);

a database (136, 138) accessible over said data network; and

a plurality of data input devices (102, 104) connectable to said data network,

wherein said system is configured (Figures 2-9) to provide each user entity with a virtual, unique, private, personal, social network (herein a 'social network') formed from connections between contacts, said contacts being entities connected directly or indirectly to a user entity, said social network further providing respective interrelationship context information associated with a connection between at least two contacts and/or between a contact and said user.

Claims 2-5, 7, 9-13, 15, 21, 23, 27-30, 32-41, 43, 45-50, 54-60, 62-70, 80-89, 91-93, 95-96, 98, 100-105, 107-113, 115-116, 118

The “wherein clauses” merely consist of non-functional descriptive materials.

Response

Applicant's arguments with respect to claims 1-5, 7, 9-13, 15, 21, 23, 27-41, 43, 45-50, 54-60, 62-70, 80-89, 91-93 and 95-120 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 2155

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
